

Designed with slim safety heads and high carbon steel blades, this microduct sheath slitting tool is perfect for slitting the sheaths off microduct bundles to access the microducts inside. This sheath slitting tool also features the following:

- Unique slim head design gets in between microducts easily while preventing accidental nicks and cuts
- High carbon steel blade slices through microduct sheaths with ease
- Thick handle for improved ergonomics and secure grip
- Large loop for storing on a belt, carabiner, or key ring
