

Lightweight and portable, this rodder unit is perfect for running conduit inside and outside conduit drops as well as home drops from the hand-hole box to a building. This rodder also features the following:

- Used for light pole wiring, control wiring, or walker ducts
- Can be pulled horizontally or vertically
- Made with a non-conductive fiberglass core with a yellow nylon coating for high visibility and flexibility
- Rod can be pulled horizontally or vertically
- Lightweight and compact design for easy transportability
