

Designed to deburr the insides of microduct tubes, this rapid microduct deburring tool is perfect for preparing the inside of fiber optic microduct tubes for termination. This deburring tool also features the following:

- S-shaped blade cleanly deburrs the edges and insides of microduct tubes
- Blade made from tempered HSS (high speed steel) for maximum sharpness and durability
- Ergonomic rubberized handle provides a secure and comfortable grip while deburring
- Can also be used on brass, steel, aluminum, copper, or PVC pipes
- Great for removing debris from 3D printed parts
- Lifetime Warranty
